RE: Final Approval of the Potassium Ferrate Treatability Study

Dear Ms. Roberson:

EPA has reviewed DOE's responses to EPA's comments on the referenced document. In general, DOE's responses adequately address EPA's comments. Also, it is our understanding that CDH's comments were also satisfactorily addressed. Therefore, EPA is hereby granting final approval of the document. EPA suggests that DOE proceed with the implementation of the treatability study as soon as possible in order to avoid unnecessary schedule delays.

Please do not hesitate to contact Arturo Duran of my staff at 294-1080 with any questions you may have regarding this matter.

Sincerely,

*W. L. Fraser*
